WELCOME TO CPL NEXUS

# Simplify Your Projects, Enrich Your Experience.

Our web-based client portal is designed to elevate project engagement and coordination. By integrating architectural, engineering, interior design, and planning services with advanced technology, CPL Nexus offers a highly interactive and value-adding experience for both designers and project owners alike.

Imagine having all your project data—including floor plans, PDFs and change orders—organized and accessible in one secure, user-friendly interface. That's the power of Nexus.

**It's time to revolutionize the way you work.**

**Matterport®**

# API Support

## Fully Integrated Solutions

CPL Nexus offers first-rate application programming interface (API) support, integrating with various tools and programs, including building information modeling (BIM) software, spatial data walkthroughs, and more. This versatility enhances project delivery by enabling seamless data sharing across multiple platforms.

# A One-Stop Project Hub

## Everything You Need, Right at Your Fingertips

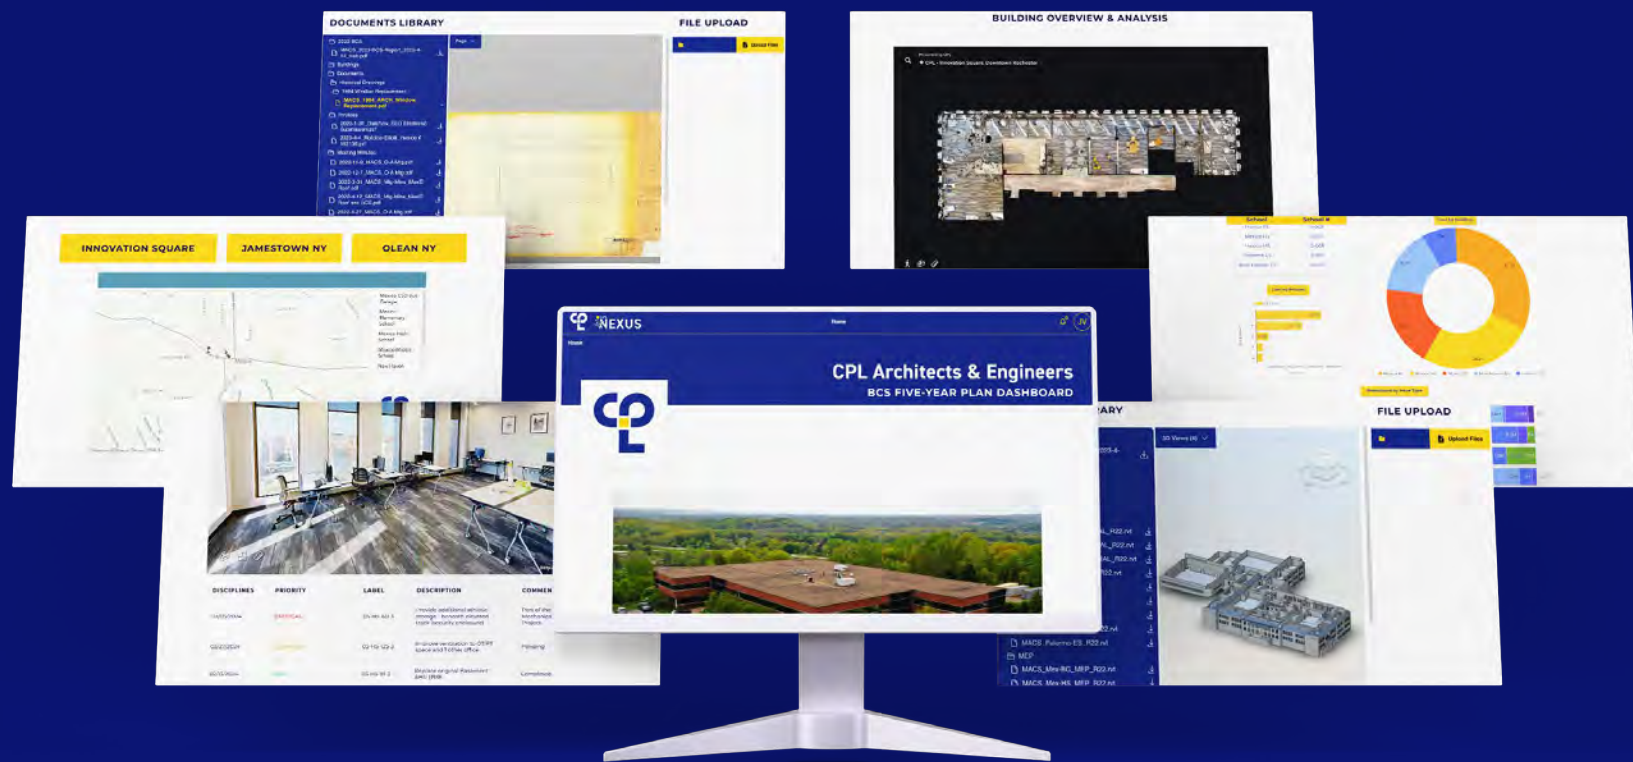

At the heart of CPL Nexus is a centralized repository for all your project-related information, providing instant access to essential files as they are added. From building condition surveys and 3D renderings to meeting minutes and agendas, everything you need is just a click away—and updated in real-time.

# Real-Time Updates

## Stay Current, Stay Informed

Our dynamic system updates all files in real-time, ensuring that authorized users have 24/7 access to the latest and greatest data.

Whether it's a revised floor plan or project schedule, you can trust that you're working with the most current information from project kickoff to closeout, avoiding delays, mitigating timeline or budget errors, and pivoting as needed.

# Custom Portals

## Your Project, Your Way

No two projects or organizations are the same, which is why CPL Nexus provides a range of built-in customization options. Our personalized dashboards offer a departure from generic solutions, providing superior user experiences and aesthetics tailored to unique project requirements and brand identities.

# Enhanced Collaboration

## Elevating Team Dynamics

CPL Nexus is more than a file library; it's a sounding board for improved co-creation and issue resolution, anytime, anywhere.

From streamlined document management to precise milestone tracking, its intuitive interface transforms the way we work together. Our vision is to move beyond traditional PDF reviews and email exchanges by enabling instant feedback directly within the platform. Be it asking a question about the placement of an electrical panel or annotating a project rendering to explore alternative design options, CPL Nexus is poised to capture and preserve a comprehensive record of our design discussions and modifications over time.

# Growing Team, Stronger Connections

Since 1975, CPL has grown into a multidisciplinary team of more than 500 experts spanning seven states, who co-create inspiring designs for the community, healthcare, higher education, and K-12 education sectors.

Over the years, our national footprint has expanded, but our design philosophy hasn't changed: projects are built on profound relationships, which help us fully unlock each client's vision.
