UNLOCK HIDDEN EFFICIENCY IN YOUR BUILDING

NYSEG Retro-Commissioning (RCx) Program

Retro-commissioning improves how your building's systems operate by identifying inefficiencies, correcting issues, and fine-tuning operation to boost efficiency and reliability while minimizing costly equipment replacements.

Through the NYSEG RCx Program, your facility can receive a **LOW/NO-COST, HANDS-ON EVALUATION** to uncover and correct inefficiencies for lasting energy and comfort gains.

Expertise that Delivers Results

CPL's **Energy Solutions team** includes certified RCx professionals who bring years of hands-on experience optimizing complex building systems across education, healthcare, and municipal facilities.

Our team delivers end-to-end retro-commissioning services that meet program standards, verify savings, and turn no-cost studies into actionable, cost-effective improvements.

Our Advantage

- **End-to-End Support**: From energy study to implementation guidance—we handle the details.
- **Proven Tools**: Using **Bluerithm** software, CPL streamlines analysis, measure tracking, and reporting for clear, data-driven results.
- **Pathway to Future Projects**: RCx is often the first step toward larger design, decarbonization, and capital improvement initiatives.
- **Trusted Partnership**: We help you access incentives, act on findings, and achieve lasting operational and energy savings.

WHY PARTICIPATE?

No-Cost Retro-Commissioning Assessment
100% covered with $5k in qualifying improvements.

Reduce Energy Use
Cut waste and lower operating costs.

Access Incentives
Leverage NYSEG and NYSERDA funding.

Enhance Comfort & Performance
Optimize systems for better comfort and reliability.

Eligible Facilities:

Schools | Municipal Buildings | Healthcare Campuses | Community Centers

About CPL

Founded in **1975**

500+ multi-disciplinary professionals

25 offices in **8** states
